Where will EQQ be Licensed?

Ewarenow Quick Query (EQQ[®]) is a web application that will be installed on and licensed to a computer of your choice that has IIS (Internet Information Services) installed.

To obtain a valid license, you need to provide two facts about that computer: Its name and its MAC address.

Find the Computer's Name

Sign into the computer on which EQQ will be installed and do the following

- Open File Explorer and look for 'This PC' in the left pane
- 2. Right click on it and click Properties. It will show you the computer name.

Find the Computer's MAC Address

Sign into the computer on which EQQ will be installed and do the following

- 1. Click/tap Settings
- 2. Click/tap Network and Internet
- 3. In the 'Change your Network Settings' section, click/tap Network and Sharing Center
- 4. Then in the 'View your active networks' area click/tap the network connection link
- 5. Click/tap the Details... button
- 6. Look at the line for Physical Address. This is the MAC address to submit for licensing.
 - It is 12 hex characters long. The dashes are just for human convenience.
